

## Welcome to Leadership Clicks!

What is Leadership Clicks?

It's a revolution.  
It's a breath of fresh air.  
It's real world.  
It's practical.  
It respects your time.

Leadership Clicks is an e-learning program that only lasts 30 minutes. Why? We know leaders are busy and have a lot to do. We think in today's fast paced business world, asking or expecting a leader to sit in front of a computer for 2-3 hours is impractical and quite frankly a big waste of time.

Here is the revolutionary part and how we are different. With Leadership Clicks a leader can sit down launch a program with the stroke of a few keys and learn the essential nuts and bolts about a specific leadership topic 24/7. No fluff, no bull just the essential "have to know" stuff and all in only 30 minutes. Using video clips, music and interactive quizzes, the person taking the course is still involved, but it is just the right length.

These courses feature subject matter experts who are professional speakers, authors and trainers on a wide range of topics such as:

- Effective Leadership
- Service Excellence
- Executive Image
- Leading Change
- Negotiating for Success
- Executive Etiquette
- Productivity

Each category has 3-5 programs each lasting 30 minutes.

The website is the launch pad for all the programs available. So what could be easier and more practical? Save time money and resources and have your leaders learn on their own time at their own pace. Contact your representative today to a free preview of one of our modules.
